DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: Applicant recites the limitation "the passage hole" in line 13 of the claim. There is insufficient antecedent basis for this limitation in the claim. Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-15 allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant has sufficiently claimed a suspension lamp wherein a wire connection base is located. The pertinent prior art of Wu (U.S. Patent 6369325) teaches a switch box for a suspension lamp, but fails to teach the plurality of locking and insertion slots in receiving elastic locking members that are in electrical communication with two conductive plates.

Therefore, the prior art fails to teach or suggest the combination of structural elements disclosed within independent Claim 1, wherein the applicant has narrowly defined a suspension lamp incorporating a novel wire connection base. All subsequent claims are allowed due to dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following references are cited to further show the state of the art pertinent to the current application, but are not considered exhaustive:

US Patent 6238239 to Wu;

US Patent 6369325 to Wu;

US Patent 6514095 to Smith et al;

US Patent 6600102 to Wu;

US Publication 20030148659 to Walker et al;

US Patent 6780050 to Wu;

US Patent 6851967 to Miyoshi et al.

This application is in condition for allowance except for the following formal matters: Independent Claim 1 recites a limitation that lacks antecedent basis, which fails to meet the requirements of 35 U.S.C. 112 2nd Paragraph. Appropriate correction is required to overcome the objection by the examiner.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
